

// There's a new bot in town

I'm made from 100% recycled plastic and I'm recyclable

ECOBOT
MULTI-CABLE

// Getting to know me

// I'm made from 100% recycled plastic and I'm recyclable. My head and tips made from recycled ABS and my cables are made from recycled TPE & recycled PET.

// I have Dual USB-C & USB-A input & USB-C, Lightning & Micro-USB output for, so you only need me for charging all your mobile devices.

// I am stocked and printed in the UK, meaning I'm available on express lead-times as standard.

// I come supplied in a fully biodegradable EcoBot branded zip lock bag as standard.

// I am fully certified to UKCA, CE, FCC and GRS as safety is of utmost importance to me.

// I travel by slow boat as sea freight keeps my carbon footprint to a minimum.

// Chargers contribute to more than 51,000 tonnes of electronic and electrical equipment waste each year.

// Thank you for choosing to be eco, thank you for choosing to be part of the solution.

// Thank you for choosing eco
